

Teacher _____

Student _____

1. First **neatly** draw the music staff  in the box.

2. Then add the treble clef at the beginning of the staff. Make sure that the circle of the treble clef goes around the second from the bottom line.

3. Now draw a **scale** of **quarter** notes starting on **middle C** on your staff. Remember to go an octave- low C to high C. You will need to draw a small line below the staff to add your middle c.

4. Then draw the **measure lines** so that there is **four** beats to a measure.
5. Finally **check your work** to make sure you have a staff with a treble clef, a scale from c to c with quarter notes made into two measures with four beats in each measure.
6. **Flip** your paper **over** and I will come by to grade it. Do **NOT** draw on the back. **Please stay quiet.**
